

# The Pollution Solution

- Across**
- 4 This happens when there is too much rainwater.
- 5 A watershed is a land area whose \_\_\_\_\_ runoff drains into rivers, lakes, streams, or oceans.
- 7 This can cause a human to get sick.
- 8 Erosion is the washing away of \_\_\_\_\_.
- 9 Animals and humans use these for food.

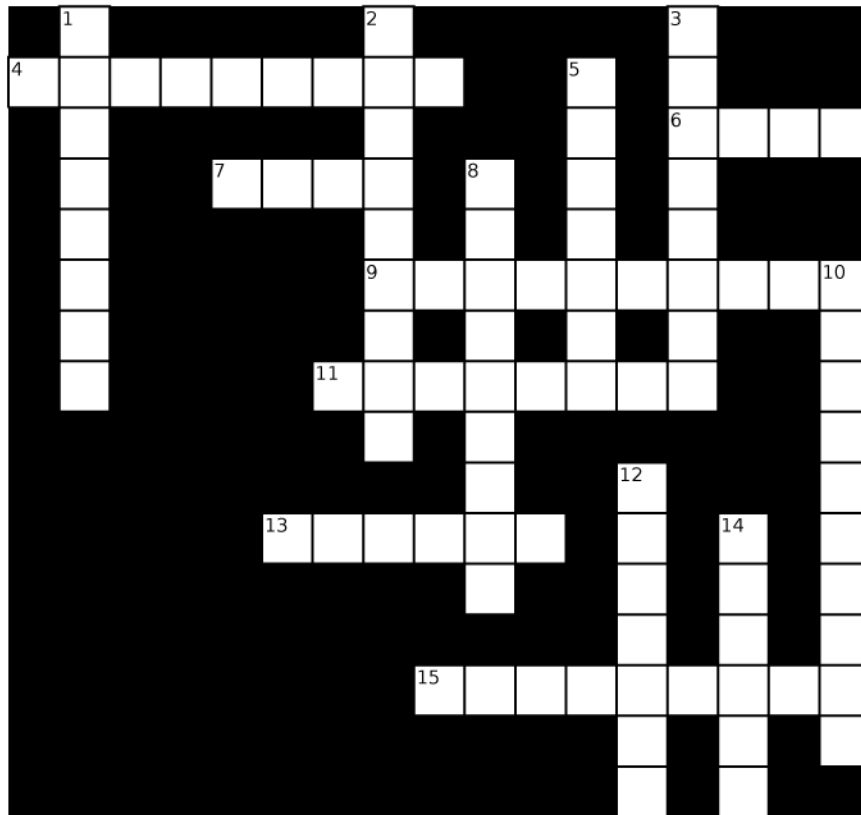

- Down**
- 1 A \_\_\_\_\_ garden is designed to collect and filter rainwater.
- 2 A name for litter, grease, oil and other items that end up in our water.
- 3 The number of major watersheds in Ft. Wayne.
- 6 Recycling is the best way to reduce your \_\_\_\_\_.

# The Pollution Solution

- Across
- 4 There are two major types of \_\_\_\_\_; point source and non-point source.
- 6 Never \_\_\_\_\_ anything down a storm drain.
- 7 Type of garden used to collect water runoff and filter pollutants.
- 9 The term meaning able to cause disease, especially in humans.
- 11 This is the name for items such as nitrogen and phosphorus.
- 13 The 4 major watersheds in Ft. Wayne are St. Mary's, St. Joseph, Upper Wabash, and \_\_\_\_\_.
- 15 \_\_\_\_\_ insecticides and herbicides are types of \_\_\_\_\_ harmful to our waterways.

- Down
- 1 This type of sewer system carries stormwater and sewer water together.
- 2 Water flows off of a roof, into a \_\_\_\_\_, and can be directed to a rain garden.
- 3 Dirt, soil, and sand that end up in area streams and rivers.
- 5 It is important to properly \_\_\_\_\_ of pet waste.
- 8 A \_\_\_\_\_ is a land area whose water runoff drains into a nearby body of water.
- 10 Turbidity is a measure of water's \_\_\_\_\_.
- 12 This is when soil is washed away by rain water.
- 14 Rain gardens and green roofs are types of low \_\_\_\_\_ development techniques.

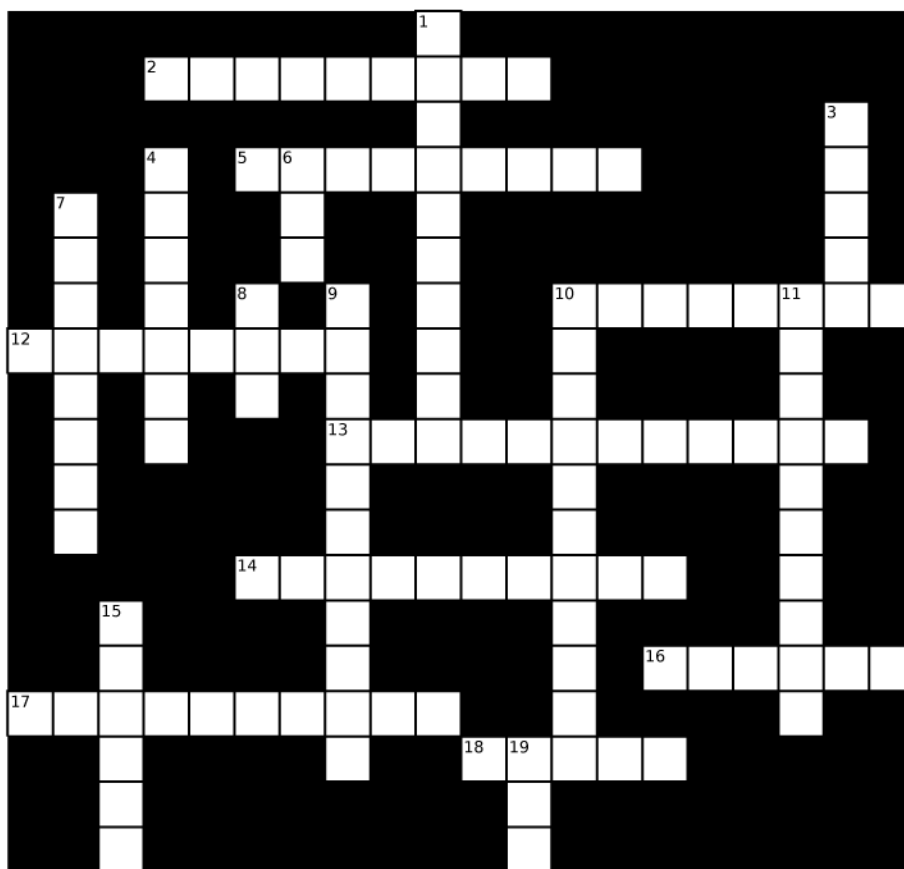

# The Pollution Solution

## Across

- 2 Land area whose water runoff drains into a body of water.
- 5 A \_\_\_\_\_ directs water from a roof to a rain garden.
- 10 Increased development and large rain events can cause \_\_\_\_\_.
- 12 This is a zone of vegetation next to a body of water used to filter out pollutants.
- 13 Chemicals used to control or kill insects.
- 14 \_\_\_\_\_ water reduces the demand on existing water supplies.
- 16 This is a natural source of nitrogen and phosphorus.
- 17 Water picks up \_\_\_\_\_ such as pesticides from lawns when it rains.
- 18 It is important to properly dispose of pet \_\_\_\_\_.

## Down

- 1 High levels of this nutrient can cause algal blooms.
- 3 \_\_\_\_\_ roofs are a type of LID technique.
- 4 It is important to \_\_\_\_\_ friends, family, and neighbors on ways to keep our water clean.
- 6 Leaking motor \_\_\_\_\_ can cause pollution when it is washed off road surfaces.
- 7 \_\_\_\_\_ can cause an increase in turbidity.
- 8 These techniques work with natural landscapes to soak up rainwater.
- 9 Non-point source pollution comes from various places in the \_\_\_\_\_.
- 10 Homeowners should use \_\_\_\_\_ sparingly.
- 11 Type of surface where water is unable to reach the soil to soak in.
- 15 Rain gardens help to \_\_\_\_\_ pollutants.
- 19 The Clean Water \_\_\_\_\_ was passed in 1972.
